REMARKS/ARGUMENTS

The Notice of Draftsperson's Patent Drawing Review indicates that Figure 13A is missing. The absence of Figure 13A was the result of inadvertence without any deceptive intent or motive. Applicants submit herewith a new sheet of drawings containing Figure 13A for this application. Figure 13A is properly added to the application, without introducing any new matter, pursuant to the provisions of MPEP 201.06(c)(IV). The present application is a divisional of US Serial Number 08/474,892 filed June 7, 1995 (now US Patent Number 5,880,260), which is a divisional of US Serial Number 07/973,588 filed November 9, 1992, which is a continuation of US Serial Number 07/438,544 filed November 20, 1989. Box 5 of the Utility Patent Application Transmittal filed in the present application on August 21, 2001 indicates that "the entire disclosure of the prior application, from which a copy of the oath or declaration is supplied under Box 4b, is considered as being part of the disclosure of the accompanying application and is hereby incorporated by reference therein". Applicants filed a copy of the oath or declaration submitted in the three parent applications, and identified the parent applications in the Utility Patent Application Transmittal and in the Preliminary Amendment submitted on August 21, 2001. Figure 13A is properly considered a part of the present application by reference, and can be incorporated into the application without the introduction of new matter. Applicants respectfully request that Figure 13A be so entered.

CONCLUSION

Applicants respectfully contend that all conditions and formal requirements of patentability have been met. If the Examiner in charge of this application believes it to be helpful, he is invited to contact the undersigned attorney by telephone at 312-913-0001.
